Electronic Books

The Library subscribes to a wide range of e-books on IT, business, engineering, chemical & life sciences and social science subjects.

Also available are over 3,400 public collection titles on classics, general and literary works which are accessible from NetLibrary.

Access to Electronic Books

Many of these electronic books may be accessed on or off campus through ELISER. You will need to login using your SPICE ID and password.

If you have questions about which electronic book collections to use, the librarian will recommend suitable collections for you and show you how to use them.

To access Electronic Books, go to ELISER > Electronic Resources > E-Books

Our e-books Collection:

Books 24x7

The ITPro Collection has over 5,000 IT titles, covering areas such as graphic design & multimedia, desktop applications, hardware, operating systems, programming, web development and telecommunications.

The EngineeringPro Collection has over 1,200 titles covering disciplines such as aerospace, automotive, bioengineering, chemical engineering, civil & environmental engineering, electrical engineering, marine engineering and mechanical & manufacturing engineering.

CRC FOODnetBASE

Over 200 e-books on topics related to food science such as food chemistry, engineering & processing, additives & ingredients, food microbiology & safety, packaging, product development, nutraceuticals, etc.

Credo Reference

250+ reference titles on a variety of topics such as business, medicine, science & technology. Includes general references such as language dictionaries and encyclopedias. A network of cross references that links information from one e-book to another is provided.

Ebrary

Over 33,000 titles on many topics, ranging from arts, business, computing, science & technology, humanities to social science, languages, music and fiction.

Gale Virtual Reference Library

10 selected reference titles on medicine, science, social science and technology. For titles list, do a keyword search in OPAC under "gale virtual reference library."

NetLibrary

91 titles from various subject disciplines such as business, IT, science and engineering. An additional 3,400+ public collection titles including classics and many literary and general works.

Referex Engineering

Safari Books Online

170+ titles mainly IT books from publishers such as Addison Wesley, Adobe Press, Microsoft Press, New Riders, O'Reilly, Peachpit Press, Prentice-Hall, Que and Sams.
